-  Screw-in crown
-  Gold 750‰ (18K)
-  4-year International Warranty
-  Water-Resistant to a relative pressure of 15 bar (150 metres/500 feet)

WATCH FUNCTIONS

The crown has 3 positions:

1. Normal position (wearing position): when the crown is positioned against the case, the crown ensures that the watch is water-resistant.

Occasional winding: if the watch has not been worn for 50 hours or more, wind it up with the crown in position 1.

2. Correcting the date: pull the crown out to position 2, turn the crown forwards, then push the crown back to position 1.

NB: date-setting is not recommended between 8 pm and 2 am.

3. Time setting: hours – minutes – seconds. Pull the crown out to position 3. The seconds hand will stop. Turn the crown forwards or backwards. Synchronise the seconds by pushing the crown back to position 1 to coincide with a given time signal.
